Bi-State Harbor Expansion Nearly Done

Conveyor, Hopper And Trestle Aligned; Capacity To Be 100 Tons An Hour

A \$356,000 expansion of the Bi-State Development Agency harbor on the Chain of Rocks canal is to be distributing in a week to 10 days, increasing the dock capacity and speeding the loading and unloading of barges.

Col. R. E. Smyser, executive director of the agency, told the Press-Record a new system with a conveyor and hoppers will handle 100 tons an hour.

In the expansion, the dock was extended 300 feet to the north with a railroad trestle. The conveyor and hoppers are at the south end.

800-Foot Dock
"We now have 900 feet of dock space with 700 feet for mooring barges. This is an additional 400 feet for moorings," Col. Smyser said.

The conveyor is designed to handle bulk materials such as sulfur, ore and steel. The trestle is made of steel. From the hopper it can be unloaded into rail cars.

The conveyor has a capacity for handling 100 tons an hour and is at the public section of the Bi-State Agency's Granite City harbor. The agency leases 100 feet to Granite City Steel Co.

At the north end where the curved trestle is located, the dock is to be expanded to provide facilities for direct loading and unloading of barges and rail cars. The trestle also provides track for maneuvering rail cars, ending a problem.

600-Foot Public Section
The 600-foot public portion of the dock is operated by the St. Louis Terminal District, which also has an operation along the St. Louis river front.

When the new conveyor system and trestle are completed, a dedication ceremony is to be planned. "It won't be too long now," Col. Smyser said. "Painters are at work on the conveyor and hopper and rails are being installed on the trestle."

North of the Bi-State harbor, the Tri-City Regional Port Authority has leased the remainder of the one-mile outfall along the canal. It has installed an access roadway and is studying bids for a rail spur.

Niedringhaus Accident
Autos driven east on Niedringhaus avenue by Miles S. Phillips, 43, of Springfield, and Donald L. Lilley, 24, of 4316 W. 24th St., collided as both attempted to make a right turn onto 21st street about 1 p.m. Friday. Sides of both cars were damaged.

A \$17,000 CHECK for the United Fund for A. O. Smith Corp. employees was presented to James Marlow (center), the company's personnel administrator, by Carl Archer, president of the Ballmakers Local 375. Looking on are other members of the plant's campaign committee. At left, C. E. Blankenship, the chairman, stand from right: Carl Sonntag, representing Machinists District 9, and at far right, Bob Schumacher of Electrical Workers Local 309. All five attended the United Fund's second report meeting Friday at the YMCA.

Crossing Protection Included
County plans for improvement of the crossing system at the intersection of the railroad crossing, the county reports.

From 66-10 South
The county's proposed improvement of the crossing system would extend from old Route 66-10 at the Orchard road and past Marvill street to the city limits of Granite City.

It is unlikely the project will be undertaken before 1965 since it is the state's present schedule for improvement of the crossing between Granite City and Mitchell.

The county highway spokesman said the department said the project presently is in only the planning stage. "None of the plans are definite yet, but we want to learn if Granite City would be interested in continuing the project from its city limits to Ponton road," the county highway spokesman said.

Looking To State
He added that the state highway department is expected to assume responsibility for the project and trestle are completed, a dedication ceremony is to be planned. "It won't be too long now," Col. Smyser said. "Painters are at work on the conveyor and hopper and rails are being installed on the trestle."

Ice Age Million Years Ago Causing Problems At SWIU

(Picture on Page 2.)
The Ice Age—believed to have occurred a million or more years ago—is causing construction problems at Southwest Illinois University's new campus.

Because of unstable glacier deposits of decayed rock, clay, sand, stones and even pockets of water, found 55 to 80 feet down, each one of the 110 caissons presents an individual problem which must be solved.

The foundation caissons—shafted to 4 1/2 feet in diameter—are being "belled" at the bottom to diameters of 15 1/2 to 20 feet in order to provide a solid foundation for the buildings under construction.

Nothing Like It
Concrete poured to provide the suitable foundation, but construction workers of the area have never run across anything like it before.

The foundation for the Quad-Cities Chain of Rock canal locks walls is on bed rock which was found 70 feet down.

1 DAY WITHOUT QUAD-CITY TRAFFIC DEATH

(Related Story on Page 2.)
A busy and possibly heated session of decisions is expected for this evening's Granite City council session, which begins at 8 o'clock at the city hall.

While an agenda normally is not prepared for the last meeting of the month, the carry-over items from last week probably will produce a full-scale session instead of the usual fourth Monday abbreviated meeting for committee sessions.

Special Pollution Committee
Chairman Charles W. Moxley said last week upon presenting his report to 11 council members that action would be sought on the recommendation at tonight's meeting. Other aldermen and the mayor also will be present.

The committee is recommending a \$360,000 project to install a sewage treatment plant. The city sewerage treatment plant. The city sewerage treatment plant.

Decision Expected Tonight
Council members will be asked tonight to decide if the city is to build just a treatment plant or interceptors are to be included.

In the event the committee recommendation is accepted, an ordinance is being prepared for presentation to the council to set an election date next month. The day proposed is Nov. 26, and

UF Rocket 60.4% On Way To The Moon

Contributions Zoom To \$188,413 At 2nd Report Meeting Held Friday

Zooming toward the moon at a record pace, The Tri-Cities United Fund is well ahead of schedule in its difficult space flight.

That was the good news Friday at 1964 campaign workers heard a "direct report" from the spacecraft at the second report meeting of the three-week fund drive.

Contributions have reached \$188,413.35 or 60.4% of the \$312,213 goal. This is well over the 50% predicted for the report meeting by A. P. Steinhilber, general chairman and chief fundraiser.

It was a whopping jump from the 13.9% reported at the first meeting a week ago. And it was nearly double the 31.9% contributed at the same time a week earlier.

Steinhilber urged his assembled astronauts to continue the good work and pass the 100% mark, enabling the rocket to hit "the dark side of the moon."

Next Report Wednesday
The next report is scheduled for noon Wednesday and Steinhilber is shooting for 90%.

The fourth report will be made Oct. 30 with the final returns due Nov. 6. The final meeting was moved up from Nov. 3 due to a conflict with the Chamber of Commerce meeting.

Robert Gengler, chairman of the Industrial Employees Division, received the YMCA Section award for having the division with the highest percentage. He reported \$102,517 or 83.4%.

Included in that total was \$101,278 or 82.4% of the quota set for the Manufacturing Division headed by James Marlow.

Only two other sections in the seven divisions topped that percentage. They were: Other Professions Section of the Professional Division with chairman, Mrs. Fannie Epstein reporting \$100,009 or 93.5%, and the United Farmers Section of the Public Employees Division, headed by A. J. Mueller with \$1154 or 92.4%.

Fourth high was Ed Stone's Grocers and Confectioners Section, Commercial Division, with \$4638 or 82.2%.

\$18,000 By Steel Mill Workers
Boastful Gengler's Industrial Employees Division were contributors of \$46,000 by Granite City Steel Co. workers, \$17,000 from A. O. Smith Corp. employees and \$7200 from American Steel Foundries employees.

Granite City Steel's contribution annually has been the largest—was 2.2% more than last year. A. O. Smith's gift also jumped 15.2%.

Murder Charged In Tavern Shooting

Wilton Earhart Admits Killing John Salmon, 24, During Argument

A murder warrant was served this morning by Granite City police on Wilton Earhart, 30, charged with the gun slaying of John Allen Salmon, 24, during an argument at the Tip Tavern, 18th and State streets, about 6:30 p.m. Sunday.

Earhart is being held without bond for a preliminary hearing at 10 a.m. before Police Magistrate Gasparovic.

Salmon, who lived at 2033 Fifth street, East Madison, the father of three small children, was dead on arrival at St. Elizabeth Hospital from a bullet wound in the chest near his heart. An inquest is to be conducted by Deputy Coroner Francis Leahy.

Earhart, who lives at Apt. A, 705 Madison avenue, Madison, has confessed already, but has refused to give a written statement.

He also has refused to divulge the nature of the argument and has declined to show police where he threw the .32 caliber revolver after leaving the tavern.

Witnesses told police the men argued briefly before Earhart shot Salmon. Earhart, a part-time mechanic for House Automotive, 1749 Madison avenue, said he knew an argument was brewing but she did not want trouble in the tavern.

Engineers' Report Gives Cost Breakdown For GC Treatment Plant and Interceptors

A breakdown of construction and operating costs for two different size sewage treatment plants is included in the engineers' report received last week by Granite City council members for possible action at tonight's meeting. The engineers recommended construction of a smaller treatment plant with interceptors and "Plan B" with interceptors.

The engineering firms of Shepard, Morgan & Schwab, Granite City, and Crawford, Murphy & Tilly, Springfield, presented two plans—"Plan A" without interceptors and "Plan B" with interceptors.

The cost for a treatment plant to handle all city sewage—Plan A—would be \$1,715,000; while the treatment plant with interceptors, Plan B, would cost \$1,417,500, and the interceptors would cost \$2,187,500.

A breakdown of the larger treatment plant costs sets forth \$1,222,500 for the construction, \$188,500 for construction contingencies, \$25,000 for trucks to haul sludge, \$12,400 for engineering and inspection and \$45,600 legal and administrative costs for the \$1,715,000 total.

Smaller Treatment Plant

A similar breakdown for the smaller treatment plant with interceptors, Plan B, sets forth \$1,087,500 for construction, \$163,500 for construction contingencies, \$25,000 for trucks, \$104,000 for engineering and inspection and \$37,000 for legal and administrative costs, to total \$1,417,500.

The interceptors sewer costs are listed as \$1,947,500 for construction, \$172,500 for engineering and inspection, \$38,200 for legal and administrative costs and \$10,000 for right-of-way to total \$2,168,200.

The engineers state in the report that federal grants for the construction of sanitary treatment plants and interceptors are available to cities that qualify for assistance and are computed on the basis of 30% of the costs with maximum of \$800,000 for any one project.

Added Sanitary Sewers

In addition, the engineers have prepared cost figures for installation of sanitary sewers in three areas not now served. Financial arrangements have not yet been prepared, but council members pointed out it would be up to property owners in the areas involved to pay for the sewers.

For the North Granite area, sanitary sewer lines would cost \$124,400 of which \$138,200 would be for construction, \$11,900 for engineering and inspection and \$200 for legal and administrative costs.

For a Denver-Cavuga street line, the total cost would be \$12,500, of which \$10,000 would be for construction, \$1300 for engineering and inspection and \$200 for legal and administrative costs.

A sanitary sewer line for the Nevada-Ohio avenue area would cost \$22,700 with \$18,400 for construction, \$1800 for engineering and inspection, \$500 for legal and administrative costs and \$2000 for right-of-way.

Plant Operating Costs

The annual operating cost for a sewage treatment plant was set at \$123,900, of which \$86,000 would be for salaries and \$37,900 for maintenance.

The salaries would include \$8,000 for a superintendent, \$6,000 for a chemist, \$4,000 for seven operators, \$6,000 for a maintenance man, \$4,800 for two laborers to be hired five months a year, \$6,000 for retirement and \$14,100 for two truck drivers with their retirement and welfare payments figured in the pay.

The annual maintenance cost of \$37,900 would include \$8,400 for power, \$17,580 for chemicals, \$800 for heating fuel, \$800 for supplies and materials, \$1000 for equipment repairs, \$1000 for new equipment and laboratory tools, \$500 for transportation, \$500 for insurance, \$1720 to operate two septic tanks, \$3000 for truck depreciation and \$4850 for handling.

The annual cost for the operation during the 20th year would be \$106,800.

Smaller Plant—\$400,000 Less

The engineers pointed out that the operating cost for a smaller treatment plant with interceptors would be \$400,000 a year less.

Application has been made by the city to locate the treatment plant on government property along the east bank of the Chain of Rocks canal south of the locks. It would be adjacent to the outlet for the existing sewer system.

"There are distinct advantages for that location both from a standpoint of ease and cost of operation," the engineers stressed. "There is in fact no other available site within reasonable distance from the existing outlets upon which a plant can be constructed without major additional cost for land development."

The area required would be 12½ acres for the larger treatment plant, 9½ acres for the smaller plant that would have interceptors sewers.

Conferences on the plant site have been held with representatives of the Corps of Engineers in Chicago, and while no commitments have been made, the engineers report, "It is believed the Corps of Engineers recognizes the distinct advantages to the city's use of the Army Depot site and that arrangements can be negotiated for use of the site."

"The Corps of Engineers has employed consultants to study the problems of collection and treatment of wastes from the depot itself. The study undoubtedly will consider treatment by the city as one of the alternatives available."

Formal Proposal Made

A formal proposal for the Corps of Engineers to make the site available has been submitted and documents the reasons for requesting this particular site, recommending justification for the use of the site and suggested contract terms.

The engineers recommend construction of the smaller treatment plant with interceptors sewers, pointing out that the interceptors would be a first step toward a master drainage plan for Granite City.

The interceptors along Nameoki road, the engineers stress, should be built before the road is widened and resurfaced in order to keep costs down. It would take the sewage from the Nameoki sanitary sewer system and divert it from the city's overloaded, combined system.

A continuation of the interceptors would be along Madison avenue south of 21st street and should be installed so as to carry out the removal of old, abandoned trolley tracks.

Additional federal funds should be available for the interceptors construction. The interceptors would permit several major industries to discharge cooling water directly to the river through existing outfalls, thereby reducing the reduction of treatment plant operating costs.

The interceptors also would provide "some additional capacity" to the present sewer system for storm water.

Eventual Secondary Treatment

With a smaller treatment plant, less property would be required at the Army Depot, and there would be less cost for secondary treatment facilities when eventually required by the state Sanitary Water Board. "As interceptors sewers allow the construction of smaller primary treatment plant, so would they permit the construction of a smaller secondary treatment plant," the engineers pointed out.

Interceptors sewer along Nameoki road would start at the location in the 2900 block of Grand avenue where one Nameoki system connecting point is located. It would proceed across high school property to Nameoki road at Iowa street and south along Nameoki road to East 21st street.

There a 20-inch line would go west to Monroe street and along Monroe to 21st street and over to Madison avenue. It would proceed south on Madison avenue with a 48-inch line, 16th street and west under the tracks and on to the Army Depot. There also would be a spur line to interceptors along 17th street from Delmar avenue to Madison avenue.

Another interceptors would be along 15th street from Grand to Madison, and another along 16th street. In the Lincoln Plaza area there would be a 24-inch interceptors along Walnut street and a 26-inch line along Cedar street.

Case Of Bloodied, Bullet-Riddled Car Solved By County

The case of the bullet-riddled, blood-stained car which was found abandoned Oct. 13 near Pough road a mile east of Route 11 was solved last week by sheriff's deputies. Two teenage East Alton boys were arrested and charged with burglary.

Burglary charges were filed Friday by Joseph Bartylak, assistant state's attorney, against Randall Hugh Rubble, 17, and Paul Thomas McGee, 18. They were implicated in three burglaries and signed statements admitting them.

Louis Bowman, chief investigator, said they stole the car owned by Mr. and Mrs. Thomas Morrison at the Lewis and Clark motel, East Alton, and used it in a burglary of the C. J. Smith hardware store in Alton that day.

Bowman said they admitted using the blood of a dead rabbit to smear the vehicle and shot up the car with a gun obtained from the hardware store in an attempt to lead police to believe murder was involved.

They also admitted burglaries at the Joseph Bell and Sons garage in Marine and at Hazel's Cafe, Cottage Hills, last Tuesday.

Bowman said that during a two-week investigation some of the loot was found on old Troy road, and nearby was information on the owner of the stolen car, linking the two crimes together.

On Thursday two boys were driving through Kirkwood. "No when they were stopped by a police officer. The officer found items taken from the cafe, and the boys admitted stealing it."

Bowman questioned the boys in Woodport that day and after some effort he obtained statements from them. They also admitted stealing and stripping another car in Jersey county.

Reenactments of the burglaries were conducted Friday, and more loot was recovered in a Wood River park and at the Rubble home.

Hope Lutheran Exceeds \$100,000 Building Goal

Hope Lutheran Church has exceeded its goal of \$100,000 in the current building fund drive.

Ralph Aulderhead, general chairman, announced today.

Pledges passing the \$100,000 mark Thursday—one day before the campaign ended.

Final plans for the new church building are being drawn by the architectural firm of William Gray Potter, Belleville. The new sanctuary, to cost \$250,000, will be erected adjacent to and north of the present building at Wabash and Garfield.

'Everyone Has A Story Of Interest'—Columnist Boyle

Will Rogers never met a man he did not like. Hal Boyle never met an individual whose personal experience or views would not prove interesting to the public.

Veteran of 2000 interviews in principal was a football star and 1000 with celebrities, the noted Associated Press columnist and correspondent told a Chamber of Commerce banquet audience here Thursday night that the 1000 "ordinary persons" provided the best interview material. They were willing to express themselves fully, while the famous generally were a "different breed" concerned with maintaining their "public image," he explained.

"Every human being has a story of interest to every other person, if properly presented," he said during a predominantly lighthearted talk in which he related that a daily columnist's job seems easy to everyone but the columnist.

Introduced by Granite City High School Principal Lawrence McCauley, his Missouri University roommate in 1923-24, Boyle was the featured speaker at the 23rd annual membership dinner meeting of the Tri-Cities C of C held at the American Legion Home in Venice. More than 300 persons, a record for recent years, attended.

Officers Installed

Principal business included installation of the 1963-64 officers. President Chester L. Baker, Vice-Presidents Carl E. Mathias and Homer A. Huber and Treasurer Robert E. Backs and 13 new directors. Baker reported on 1962-63 events and told of plans for the coming year.

While on the subject of interviews, Boyle recalled being captivated by the humorous and fascinating comments of Marilyn Monroe, but said he was unable to recall any specific interesting statements when discussing the interview afterward with his wife, Frances.

Marlene Dietrich once gave Boyle the secret of her beauty complexion—plenty of soap and water—and his recollection of Gen. George Patton, who once accompanied on four campaigns in the 1940s, was not only of a "stern commander when the battlefield situation required" but also a three-star general who wept over the death in battle of one of his captains.

Greatest Story Of War

Boyle also shared four campaigns with Ennis Pyle, whom he recalled as a 113-pounder in poor health and deep emotional trouble. A compassionate man, Pyle once halted the killing of a bug because he had seen so much human slaughter.

"It was because he felt the war so deeply that he was able to tell much of the story of the rest of us," Boyle said, adding that Pyle had concluded that he "couldn't go on before writing the greatest article of world war II—about a captain killed in Italy whose body was brought down by mule from a mountain peak."

Best subjects Baker interviews are children and hermits, Boyle said.

Youngsters have creative in-

light—a bright, fresh attitude—he said, citing as an example a young girl's summary of the American Museum of Natural History—a "dead zoo."

He described a lute hermit, Uncle Silas, who found contentment on a small Florida key, laughing at tourists, gardening, reading the Bible and enjoying his long beard.

Two-Fans Suit, Swivel Chair

Reporting that chauffeurs, large estates and visits with the president are usually not the lot of a columnist, Boyle said the main requirements are a "two-fans suit and a swivel chair," from where the writer stares at the ceiling until inspired. Principal satisfaction is that one "meets such interesting people," and principal drawback is the limitation on subjects, even snakes have their staunch advocates, Boyle has found.

Boyle and McCauley related humorous incidents from their college days, when the local college was a football star and Boyle was an English major who wrote free verse but had mastered a few stanzas of poetry.

He held his own with his roommate. McCauley praised Boyle as a writer who has deep understanding of life and always retains a kindly approach. He recalled that Boyle had an intense desire to finish college, and resume his studies shortly after suffering rib and jaw fractures and a hip dislocation in an auto crash.

Everett G. Steele was toast master and meeting chairman and Paul C. of C. President. H. Lichtenberger conducted the installation. The Notebooks of a columnist and organizer Wilbur "Jack" Johnson provided musical entertainment, and prayers were offered by Rev. Sherman Wilson and Mgr. Michael Costello.

Four Activity Fields

Baker said that during 1963-64 the Chamber officers will work directly with committee chairmen in four fields—Baker on community development, Huber on public affairs, Mathias on member services and Backs on structure is part of the planning financial matters.

The revised organizational plan to make this the "most productive year in history" in terms of dynamic community progress and development, the president said in beginning his second one year term. An "exciting" year is in prospect, he predicted.

Specific targets will emerge from the second annual series of forum meetings to be held by Chamber members in November.

Miss Judith Lynn Hendricks, daughter of Mrs. LaVelle Hendricks, 1533 Market street, Madison, on Saturday morning became the bride of Richard Sam Kalka, son of Mr. and Mrs. Sam Kalka, 1647 Seventh street, Madison.

Rev. Kieszewicz officiated at the ten o'clock double ring ceremony at Sacred Heart of Jesus Church in Madison.

The bride was given in marriage by her uncle, William Cravens.

She wore a gown of embroidered tulle, fashioned with a Sabrina neckline, short sleeves and fitted bodice. The bouffant skirt was made of layers of embroidered and pleated tulle. Long white gloves, a pearl tiara and a fingertip veil complemented the gown.

A white orchid covering a prayer book was carried by the bride.

Miss Carol Rajewski, maid of honor, was attired in a ballerina-length dress of burnt orange tulle trimmed in rust velvet. A velvet cummerbund accented the slim, short-sleeved bodice. A crescent-shaped bouquet of bronze pom poms with autumn leaves was carried.

John Venarsky served as best man. Robert Kalka, twin brother of the groom, and Robert Hendricks, cousin of the bride, seated the guests.

Warriors Wreck Edwardsville Homecoming 13-6

Bulldogs Find Madison Napping On Pass Defense, Score 26-14 Victory

Highland's Bulldogs put the football in the air only four times Friday night, but two of the aerials went for touchdowns and helped make the school's homecoming celebration a happy one.

The Bulldogs scored a 26-14 win over Madison, whose Trojans in two weeks found themselves dropping from second place contenders to the fourth spot in the final Midwest Conference standings.

Quarterback John Duff unloaded both TD passes for Highland, and right end Ken Siverly was on the receiving end each time.

Coach Frank Preha's club fired up before a big homecoming crowd, scored the first TD and got its hands on the ball with halfback Joe Hess giving out the final two yards.

But it was the two quick aerial bombs which sent Madison to the dressing room at halftime trailing 20-0.

Duff hit Siverly on a 20-yard spring play early in the second period, and the pair hooked up on a 74-yard pass play later in the period. Those passes were the only two Duff attempted in the first 24 minutes of play.

Summer Intercepts: Duff's third loss in the third period was picked off by defensive halfback John Summers, who returned 30 yards to put the Trojans on the scoreboard.

Madison blanked the Bulldogs in the third period, twice pushing inside the Highland 10 yard line. But the Bulldogs dug in on both occasions, as they had once in the first half.

Madison mounted one more scoring drive in the final quarter, with fullback Paul Lusk carrying across from the one.

But Highland came right back on the ground this time—with fullback Kent Iberg rambling 44 yards to paydirt on an off-tackle slant.

We were still in position to pull it out until they got the ball.

First downs are not put on the scoreboard, however, and the Trojans completed their conference season with a 2-3 record while Highland stopped past them into third place. The Bulldogs finished their MWC campaign with a 2-2-1 mark.

Braves Blank Prather 20-0; Win JHS Title

Coolidge Braves, moving almost at will on offense behind good blocking in the first half, shut out a rival Granite City junior high school, Prather, Thursday night at the GCJHS athletic field, 20-0, in a football contest which decided the Junior High conference championship.

Eating out big chunks of yardage with sweeping runs, the Braves scored twice in the first half and had two other touchdowns in the second half because of inaction as they completed their conference schedule with a perfect 5-0 mark.

Prather adjusted its defense during halftime and blanked the Braves until a short punt set up a final Coolidge TD in the last two minutes of the fourth quarter.

Touchdown Plays
Fullback Ron Turner crashed across the Prather goal line from the two in the first quarter, and fullback Brian LaMew added the extra point on a run for a 7-0 Coolidge lead.

LaMew scored the second touchdown on another two-yard run in the second period. Halfback Jim Norris ran in the extra point. A 30-yard touchdown pass end Terry Moore and a 40-yard scoring run by Keith Gawn were called back before half time, due to penalties against the Braves.

Ron Turner scored on a four-yard plunge with less than a minute of playing time left. The kick for extra point failed.

Coolidge's defensive unit had a considerable weight advantage over Prather, and kept the Chiefs in their own territory most of the night. Guard Bob Odum of Coolidge and Dan Parrley of Prather each accounted for nine tackles.

Coolidge now 6-0, will conclude its season Thursday afternoon against Marquette in Alton. The 2-1 Chiefs play an afternoon game the same day against Clark JHS at Parsons field in East St. Louis.

Qualify For State;

Granite City high school's Warriors were shut out Saturday morning at the Mascoutah District cross-country meet. Coach Dick Harmon's runners finished seventh in the team

standings with 214 points and failed to qualify any individual runner for the state championships at Champain.

Alton won with a low score of 31 points, followed by Belleville 91, Mascoutah 109, Collinsville 141, Jerseyville 160, Edwardsville 185 and the Warriors.

East St. Louis was eighth with 220, followed by East St. Louis Lincoln 249, St. Paul of Highland 271, Wood River 287, Cahokia 304, Roxana 321 and Dupu 362.

Gary Lomas, who was second in the recent Southwestern Conference meet, was Granite City's top finisher—18th, Pat Harris.

Three GCJHS Products On Sanford-Brown College Cage Roster

Three Granite City high school products and one from Alton probably will be in Coach John Campbell's starting lineup when the Sanford-Brown Business College basketball quartet opens its season on Nov. 15 against Hannibal-LaGrange College.

Carl Worthing, 6-4 forward from Granite City and the Greater St. Louis College Conference's leading scorer for two seasons, leads the list of returnees. Bill Haven, a 5-11 guard from GC and a regular last season, is back also. Wortham's younger brother, Larry, is among five freshmen prospects, as is 6-1 forward Bob Nichols of Alton.

Other returning lettermen are 6-7 center Rich Schellhase, 6-0 forward Dave Sandell, 5-6 guard Tom Lowrey and Bill Sheridan, a 6-3 guard who played with S-B in 1961-62 and is a service returnee.

End Zone Recovery

Roxana's Shells, pulling one of the biggest upsets of the prep football season, edged Cahokia's Comanches Friday night, 7-6, to win the Midwestern Conference title.

Roxana finished with a perfect record in five MWC games; Cahokia ran second with 4-1. Ed Cade turned out to be the hero. Late in the fourth period, he scored a Comanche fumble in the end zone to tie the score at 6-6. Then he booted the game-deciding extra point.

The upset stopped a five-game Cahokia winning streak and ended a Comanche tumble in the end zone to tie the score at 6-6. Then he booted the game-deciding extra point.

GC Defense Blunts Tigers' Running And Passing Game; Hiles Scores 2, Adds PAT

Granite City's "quality kids," proving that last week's effort against East St. Louis was no fluke, shut out prep district football scoring leader Joe Townsend and spoiled the Edwardsville Tiger's homecoming Friday night, 13-6.

Halfback Joe Hiles, playing on one leg and a prayer, scored both touchdowns for the Warriors the clincher coming on a 44-yard pass play with less than two minutes remaining in the game.

Hiles' leg got heavily taped to protect pulled knee ligaments. Hiles had gone four yards shortly before halftime to give GCJHS a 6-0 lead just when it looked as though the Warriors would hog down inside Edwardsville's 10 after a series of drive-blunder penalties.

Then, with the score tied after Bob Hoskins had rammed across from the three-yard line in the third period, Hiles pulled off a brilliant pattern. Quarterback Doug Winfield, getting good protection, laid the ball beautifully in his arm for a quick score from 44 yards out which stunned a Tiger homecoming crowd made up of probably as many Warriors fans as Edwardsville followers.

Hiles booted the extra point, he had missed in the second quarter—and the GC defense was set up when Edwardsville gambled and lost near midfield in the fourth down situation.

Needling two yards for a new operating series and a chance to break the 6-6 deadlock, Edwardsville called on the burly Hoskins. But the big fullback was nailed behind the line of scrimmage by three Warriors, led by defensive specialist John Love.

On the first play from the Tiger 44, Winfield fired the TD strike to Hiles at the 15. The play had been suggested by Tiger assistant coach Gordy Galsworthy. "It was wide open," Galsworthy said. "All our kids had to do was pass block, and they did."

Granite City's linemen performed well, thank you, against the biggest forward wall in the state. Quarterback Rich Noll, with six TD's and over 500 yards passing, said his credit this fall completely only one pass all evening, thanks to a determined Granite City "unit." More determined than Noll found himself on the seat of his pants when he tried to run or dropped back into the passing pocket.

GC Linebackers Shine
Big assists in containing Townsend and Hoskins, the 1-2 "Two punch" on the ground, went to Warriors linebackers Randy Stegelmeyer and Eric Robertson, who had a busy and almost unbelievable evening. Stegelmeyer came up with 19 tackles, a school record, and Robertson was close behind with 16.

Edwardsville's one thrust which resulted in a touchdown came early in the third quarter. Townsend, held to short gains every other time he carried the ball, broke loose on a 40-yard gallop which carried to the 11.

Granite City's defensive line responded to the challenge and held on the four, but the Warriors could not move out of the hole after the ball had changed hands.

Hiles' punt to the GC 42 was returned to the Warrior 19 on a fine runback by Noll, and in three straight carries, Hoskins had the TD. The score remained 6-6 when the Warriors blitzed Hoskins, but he attempted to run across the extra point.

Warrior Coach Jim Morrison proved to be a more successful gambler than did EHS mentor Benny Isehardt. In two fourth quarter individual Saturday was Dave Moll of Mascoutah, who finished in nine minutes, eight seconds. The Alton and Belleville teams and the top five individuals will compete in the state meet.

Tom Bell, a 5-5 center from St. Louis Vashon, will give the club some needed height. Sanford-Brown's 22-game schedule includes some new opponents: the St. Louis U. Freshmen, the Alton and Belleville, Belleville Junior College and the McClelland College junior varsity.

Last season, S-B compiled a 13-15 record but won seven of its last 10 games.

Fisher Ballet Group To Open 11th Concert Season

The Tri-City Community Concert Association will open its 11th consecutive season here Thursday night with the presentation of the Nolle Fisher Ballet Co. in a varied program at the Granite City high school auditorium. Curtain time is 8 p.m.

In the midst of a national tour, Miss Fisher's company of young American dancers will inaugurate a four-concert season sponsored by the association, whose president, Raymond Henry, anticipates "the best attendance ever."

Other programs on the concert schedule include baritone Edmond Karlsrud on Nov. 18, the Tucson Arizona Boys Choir on Feb. 9, and pianist Philippe Entremont on May 5. "The concerts have been carefully chosen to provide popular appeal, a request we've been hearing from our members for years," Henry said. "Miss Fisher's group is a good example of what we're attempting to do this season. Their repertoire is wide enough in scope to provide something of interest for everyone."

The Fisher company is billed as actors as well as capable dancers, equally at home in ballet or modern dance settings. Their moods vary from serious to satirical, and all are soloists in their own right.

Miss Fisher, who directs and choreographs her group, is the featured solo performer. She has appeared in the Broadway productions of "Can-Can," "On the Town" and "One Touch of Venus," and has completed choreography for the production "Foch's Rehearsal" which opened in London.

"SONGS ALONG THE RIVER," a modern dance number with Colonial costume flavoring, is in repertoire of the Nolle Fisher Ballet Co., which will open the Tri-City Community Concert Association's 1963-64 season Thursday night at Granite City high school.
